

HEAVY DUTY FLAIL CHOPPERS

KK

FIT FOR EVERY SHREDDING

PERFECT KK flail choppers are heavy duty shredders, designed to deal with heavier working conditions. Branches and prunings up to 10 cm (4") are shredded without a problem.

KK choppers come with an adjustable rear hood and the possibility to use rake tines, which ensure that flat-laying prunings picked up.

Standard configuration includes a parallelogram-type offset feature.

*Heavy duty construction and driveline.
The best choice for the toughest job.*

KK SERIES

Heavy duty flail choppers

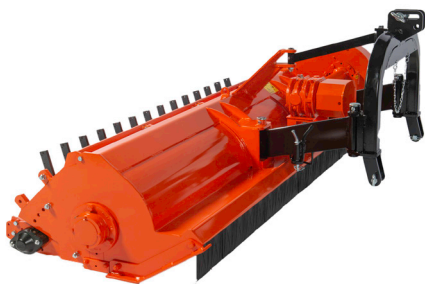

The heavy driveline, thick rotor and 2,2 kg (5 lbs) heavy-duty "PERFECT" flails have been specifically designed to pulverize prunings. They generate a great torque which is needed to also slash thicker branches. 2,7 kg / 6,7 lbs Combi-flails (photo) are available for an even finer result and a neat result in grass.

A full width rear roller and skids at both sides provide excellent stability and easy handling. To protect the bearings of the rear rollers, the bearings are fitted with unique covers to prevent humidity, dust and mud from entering.

Options

- Hydraulic offset
- Front mount headstock
- Combi-flails
- Pro-fix flail mount (protection against stones)
- Wear plate

Technical specifications KK - with rake tines

| | KK-150 |
|---|-------------|
| Cutting width cm/inch | 150 / 4'11" |
| PTO speed rpm | 540 |
| Flail rotor speed rpm | 2100 |
| Min. Power* required at 540 rpm | 30 / 42 |
| Flails 2,2kg = 5 lbs (0,9 kg = 1 3/4 lbs) | 9 (16) |
| Total width cm/inch | 171 / 5'7" |
| Tractor 3 pt. Linkage cat. | I + II |
| Maximum offset from centre of tractor cm/inch | 112 / 3'8" |
| Weight kg/lbs | 765 / 1687 |
| Number of rake tines | 11 |
